Stainless Steel

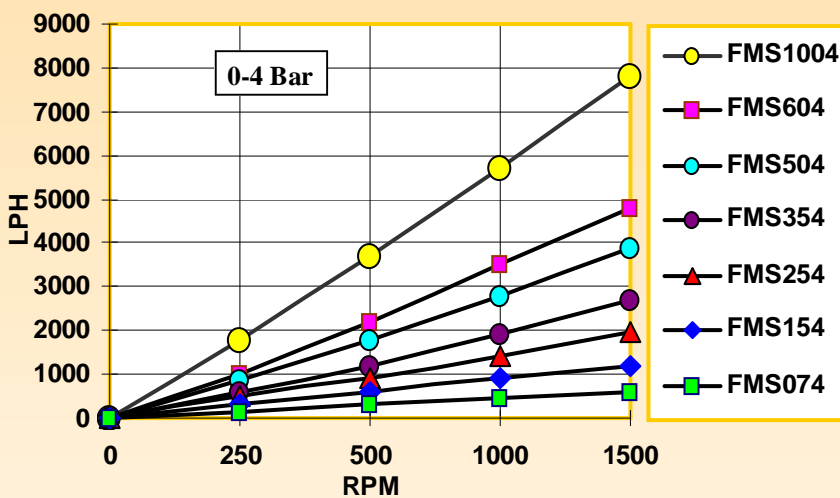

Progressive Cavity Pumps

Real Pump Solutions By Real Pump People

Tried & Proven in Many Applications:

- Flows to 10 m³/hr
- Pressures to 4 Bar
- Low noise emissions
- Low cost of ownership
- Lightweight and compact
- Non-pulsating reliable flow
- Extremely simple maintenance
- Self priming ideal for suction lifts
- High performance combined with efficient design
- Various material combinations available to suit applications.

Applications:

- Chemical industry (detergents, varnish, paints, inks, soaps)
- Waste water treat (Polymers, waste, sludge, flocculants)
- Food industry (Creams, emulsions, wine, olive oils)
- Energy (coolant and cutting oils, acids)
- Ideal for OEM pump applications
- Drainage applications
- Buildings (Bentonite)
- Abrasive slurries
- Sampling duties
- Dosing

Compact and versatile, the FM range brings you all the advantages of progressing cavity pumps, in a small, compact and economical design.
